

Bacta-Clean is available concentrate for professional use. Once diluted our product becomes an effective anti-bacterial surface sanitiser and cleaner for many uses and many surfaces.

Bacta-Clean is a one-step cleaning product that can be used anywhere for rapid hygiene results. It is multi-purpose and capable of destroying a broad spectrum of harmful micro-organisms which also puts a stop to cross-contamination.

Bacta-Clean provides effective cleaning and sanitising action against gram positive and gram negative bacteria such as escherichia coli, enterococcus hirae, listeria, pseudomonas aeruginosa, salmonella typhi, staphylococcus aureus, and streptococcus epidermidis – *to name but a few*. Also effective against aspergillus niger and candida albicans.

Bacta-Clean is an ideal sanitising wash for food receptacles, equipment and tools etc.

Bacta-Clean is pH balanced and specially formulated for hand use with no harsh effects to the skin. It is non-corrosive, non-staining, non-tainting and rapid acting bactericide with no need to rinse. It can be used around food areas, kitchens, restaurants, the home, on and around infant equipment and areas and around pet areas too.

Bacta-Clean provides fast hygienic cleaning and is available as neutral only. All our own label products are Cruelty Free.

Use biocides safely. Always read the label and product information before use. Independently Tested for EN13697, phase 2, step 2 – Dirty Conditions.
