

Pool-Care is an effective quaternary ammonium type cleaner-sanitiser – providing cleaning and disinfecting needs for use in and around the pool area, on any pool equipment, runs and shower areas etc.

Pool-Care is capable of destroying a broad spectrum of harmful micro-organisms, prevents cross-contamination such as fungal infections like athlete's foot and easily breaks down body fats from swimming pools without adverse effects to the pH level.

Our product is pH balanced, non-corrosive, non-abrasive, non-staining, non-tainting and rapid acting bactericide and fungicide.

Pool-Care provides effective cleaning and sanitising action against gram positive and gram negative bacteria such as *Escherichia coli*, *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Enterococcus hirae*, as well as *Aspergillus niger*, *Chlorella vulgaris* and *Candida albicans*.

Bacterial growth is eliminated within 5 minutes, in dirty conditions, whilst fungi and yeast require a minimum of 15 minute contact time to be fully effective.

No rinsing is required with this product.

Provides fast hygienic results.

Available in 1ltr, 5ltr or 25ltr containers.

EN13697 Tested – Phase 2, Step 2 in Dirty Conditions.

Use biocides safely. Always read the label and product information before use.

Key Features:

- Effective gram negative and gram positive bacteria eliminator - kills 99.9% known bacteria
- Prevents cross contamination
- Ideal on all hard surfaces
- No rinsing required
- No harsh effect to skin
- pH balanced
- Non-tainting
- Biodegradable
- Cruelty Free
- Non-corrosive
- Non-abrasive
- Non-staining

DIRECTIONS

Sterilise & Deep Clean: 1:50 parts water - soak for approximately 15 minutes and allow to dry.

Clean & Sanitise: 1:50 – 1:100 parts water
