

Vira-Care High Level Disinfectant Wipes

Made using non-woven material that offers both strength and absorbency with no lint deposits. The wipes are impregnated with our unique formulation Vira-Care which contains a rapid acting broad spectrum bactericide, virucide, algacide and fungicide. Our solution has been tested and approved meeting BS6734 standards for Defra General Orders Approval and independently tested meeting EN1276, EN14675 & EN14476 standards. It is effective against all viruses in the vet area which includes kennels, animal accommodation, animal husbandry. Covers Canine Parvo Virus (CPV) and other closely related strains, effective against Feline Viruses such as Calici (FCV). Eliminates 99.99% of all known bacteria, viruses, yeast fungi and odours.

Our product can be used in high risk areas, in the elimination and decontamination process of all hard surfaces including surgical equipment, tools, metals, plastics, rubbers and glass. Vira-Care is effective against specific disease-causing organisms and can be used for general disinfectant cleaning and sanitisation providing controlled, rapid and effective cleaning action.

Our wipes are convenient to use in their large counter top tubs. They provide multi-functional use and will cut through grease, grime and dirt with ease.

Available Neutral – Fragrance Free. 200 wipes per tub.

Biodegradable & Cruelty Free.

Use biocides safely. Always read the label and product information before use.

Key Features
