Our product can be used in all medical, veterinary and animal environments and aids in the elimination and decontamination process of all surfaces. Vira-Care is an effective alkaline alternative that provides superior disinfectant-cleaning action and freshness when it comes to the health and hygiene of all. Use on all instruments, equipment, hard surfaces, walls, floors, cabinets, carriers and unoccupied animal habitats to effectively kill pathogenic microorganisms and aid in your decontamination process. Multi-functional giving you more efficient removal of surface contaminants. Our products are Biodegradable, Vegan Friendly and Leaping Bunny Approved by Cruelty Free Int - no animal testing has been carried out. No animal ingredients are used.

ALWAYS REMOVE SOLIDS PRIOR TO CLEANING AND DISINFECTING

Wash, wipe, mop, spray or scrub down areas to be cleaned and disinfected ie walls, floors, tiles, hard surfaces, cabinets and unoccupied coop / animal habitats etc. Apply / spray on all unoccupied animal habitats, hard surfaces, cabinets, shelves, trays, trolleys, crates, bins, storage areas etc. For problem areas, allow plenty of coverage and contact time.

Use for all High Risk Areas. Includes quarantine areas, instruments, tools, surfaces, post contamination treatment of post-mortem rooms, kennels and other animal accommodation.

Once diluted at your chosen dilution, it can be used on all hard surfaces inc wipe-able areas such as glass, plastic, ceramics and wooden surfaces. Vira-Care is a broad spectrum disinfectant-cleaner. It eliminates viruses, bacteria, fungi, mould, yeast and odours making our product ideal for all your cleaning situations and requirements. Use to clean, sanitise and disinfect all feeding / drinking equipment, tools and preparation areas. After final disinfection, no need to rinse or sluice away areas before re-use. Allow to dry.

If using to soak, allow approximately 10 - 15 minutes and leave areas / items to dry.
